Print on Paper

Remote Manipulator Arm

The Remote Manipulator Arm
will not be articulated.
It's a single piece.
You can use a cotton swab
because it matches the thickness
of the Arm for this scale.
(2.0 mm)
Remove the cotton and cover
the swab with this paper part.
You will need another swab
to complete the length of the
Remote Manipulator Arm.
You can be creative by using any
other material for the Arm.
